

Dennis Furlan – Freelance Writing, Communications, Creative Solutions

Newmarket, Ont., 905-220-5824, df@dennisfurlan.com, www.dennisfurlan.com

- Talented, experienced and versatile editorial and creative professional.
- Portfolio of completed assignments and projects includes journalistic feature articles, copywriting, content/website writing, content marketing, all aspects of book writing and publishing, press releases, instructional design/educational writing, ghostwriting, webinar production and hosting, and more.
- Additional skills include cultivating and interviewing sources, project management, design, statistics, print and book production/formatting, tech, photography and anything that will get the job done.
- Can take on just about any topic or subject matter to complete assignments and projects professionally, efficiently and within specified targets and objectives.

The following is a summary of a freelance writing career that started in 2001. Since much of this experience involves working with countless freelance clients over the years, this summary is a partial one. A more comprehensive detailing can be provided upon request. Thank you.

July, 2020 – Present: Contributing Writer, *The Ontario Technologist* magazine

- Writing ongoing cover features, profiles and columns that have received very positive reviews in the field of engineering technology, a previously unfamiliar market.
- Completing ongoing assignments on deadline by interviewing subject matter experts and industry personnel in a way that brings subjects and people to life.

October, 2014 – Present: Creative Content Manager, ASCEND (ascendgrp.com, ascendmic.com)

- Managing the company's editorial and creative content in the fields of investing, mortgages, real-estate law and more, which included website writing, management and image sourcing, blogs, and electronic/print promotional materials, compliance documents, etc.,
- Adapting skills to take on additional projects, including design of high-end printable and fillable forms, creating online forms and calculators, creating brochures, business plans, etc.

April 2022 – November 2022: Content Writer, Hypertec Group

- Wrote articles/blogs in the technical field of immersion cooling that engaged an expert audience.
- Worked with the marketing executive to pitch ideas, conduct extensive research in tech/marketing.

September, 2021: Journalist, *The Registrar* magazine

- During my interview, I was asked how I would write an article on a leading professional in the field of regulations. I said I'd call her up, talk to her, then write the article. The result was an extremely engaging profile. Was then given a bonus assignment to approach a leading association and write another article.

July, 2015 – February, 2020: Book Project Manager, OMI Medical and OMI Artistic

- Managing all aspects of two book publications related to the personal care and entertainment sectors.
- Duties include: working closely with the clients to produce two high quality publication packages, writing high-end content, book formatting/layout involving graphics and images, meeting printer's press and publication specifications, managing production timelines, sourcing of images, indexing, proofreading, etc.
- Used InDesign software for the first time and, from scratch, designed a layout, formatted an entire book, including images and graphics, and created high-resolution PDFs that met publication specifications.

August, 2016: Feature Article Writer/Photographer *Better Pork Magazine*

- Was assigned a cover feature article for a major Ontario agricultural publication.
- Also served as the photographer for the assignment.

April – June, 2016: Content Writer/Content Marketing, FreshBooks

- Wrote a series of online content marketing articles for an international accounting software company that involved producing engaging content that adhered to SEO guidelines.
- Articles involved content marketing, which targeted professionals in diverse fields.

October – November, 2015: Press-Release Writing and Distribution, Prime Estimating Software

- Worked with the client to produce an engaging press release that highlighted the company's unique offerings in North America's industrial woodworking sector.
- Press-release contents were published in major industry publications after utilizing insider knowledge and extensive research to target outlets and perform follow-up.

September, 2014: Technical-Writing Editor, Real Time Data Solutions (RTDS)

- Edited technical documentation in the field of data mining with a tight deadline and no prior experience in the field, exceeding the expectations of the client.

2011 – 2014: Full-time Associate Editor, W.I. Media (Wood Industry and Coverings Magazines)

- Wrote and edited almost every major section of two national trade magazines.
- Skills utilized included feature- and profile-article writing, extensive interviewing and research, contact outreach, photography, statistics, proofing, magazine production, website and blog upkeep, social-media outreach, tradeshow coverage, travel duty, etc.

2010: Webinar Producer/Host, Skillings Mining Review

- Responsible for all aspects of executing an industry webinar, including prep work with world-leading experts, scheduling, serving as a last-minute substitute moderator, and navigating a server crash while still completing and recording the event.

2009 - 2010: Instructional Designer, Editor, Writer, Creative Content Producer, AME Learning

- Edited, wrote and designed content for, and created and sourced images for an innovative textbook on the topic of accounting for non-accounting professionals, and designed the corresponding online course.

Technical and Other Skills: Microsoft Word, Excel, including graphs and formulas; InDesign, including template and book design, formatting and layout, as well as producing publish-ready high-resolution PDFs, PowerPoint, including animation and narration scriptwriting; Adobe suite, including Acrobat, Dreamweaver, etc.; FormSite online platform; Canadian Press Stylebook and other guidelines; WordPress and other website and blog tools; social networking on Facebook, LinkedIn, Twitter, etc.; Statistics Canada database management; ftp file management; basic html and CSS and style-sheet editing.

Topics Covered: Accounting, agriculture, architecture, aesthetics, business management/consulting, construction/housing, economics/trade, customer service, date centres, data mining, discount brokerages, electronics, emergency planning, entertainment, estimating, farming, floor covering, financial services, human interest, human resources, immersion cooling, import/export, IT (information technology), interior design/decorating, international trade, investing, law, mining, marketing, mortgages, news, online trading, real estate, regulations, SEO (search-engine optimization), social media, software, solar energy, statistics, technical writing, technology, training, web development, web traffic, woodworking, and more.
